3. It will not include the manufacture or sale of Toddy, or of "Foreign Spirits and Foreign Fermented Liquors," or of Country Beer.

4. The quantity of Arrack required is estimated at between ~~34,000~~ and 36,000 gallons a month, the quantity actually issued from the Bangalore Distillery in the year 190~~5-06~~ having been ~~407,272~~ gallons. No quantity is, however, guaranteed to the manufacturer, who is bound by actual requirements, be the same more or less than the estimated quantity.

5. Tenderers must specify the lowest rate per gallon of 20° under-proof, separately for sugarcane jaggory Arrack, for palmyra jaggory Arrack and for molasses arrack at which they offer to supply during the whole period of the contract. The price thus tendered for and accepted by Government shall be the price at which Arrack of 20° under-proof will be supplied by the manufacturer to Government for issue to separate shop-keepers ~~and to renters of vend farms~~, during the currency of the contract granted under this Notification. The manufacturer shall, on requisition of Government, manufacture and supply double-distilled or rectified spirits and other special liquors of greater or less strength than 20° under-proof, for issue to the persons licensed to vend the same at such prices as may be fixed by himself; but for single-distilled spirits of greater or less strength than 20° under-proof, the price chargeable by him will be according to such strength proportionately on the rate fixed for Arrack 20° under-proof in accordance with Casella's Rules.

6. Each tender must be accompanied by a deposit of **Rs. 5,000** in cash, or in Government securities, duly endorsed in favor of "The Dewan of Mysore," and enclosed in a cover superscribed with the words "Tender for the exclusive privilege of the Manufacture of Arrack," and must be sent to the **Excise Commissioner at Bangalore** so as to reach him before noon on Wednesday the **3rd April 1907**, after which date no tender will be received. The tenders will be opened by the Excise Commissioner at his office in **Bangalore** at 12 o'clock noon on the **3rd April 1907**, in the presence of such of the applicants as may be present.

The final disposal of the tenders will rest with the Government, who reserve to themselves full power to reject any or all of the tenders without assigning any reason. The deposits made by the applicants whose tenders are rejected, will be returned to them on their application.

7. The applicant whose tender may be finally accepted by the Government, shall, within eight days of the acceptance of his tender being communicated to him, deposit at the Huzur Treasury, Bangalore, a further sum in cash, or in Government securities, duly endorsed in favor of "The Dewan of Mysore," to make up with the deposit previously made, the sum of **Fifty Thousand Rupees,** and shall execute an agreement, in the form presented on proper stamp, offering as additional security all his apparatus and stock and block in the Distillery, and binding himself to conform to the conditions hereinafter set forth, and if he fails or refuses to either make the deposit or sign the agreement required within such period, the deposit already made by him will be forfeited to Government, and the contract otherwise disposed of.

8. The contract for which tenders are now invited shall be subject to the following conditions, namely :—

I. The contractor will be required to manufacture Arrack and other country spirits within the enclosure of the Government Distillery near Bangalore, or at such other place as may be approved by the Government. For the use of the Distillery buildings near Bangalore and the arrangements existing in connection with the water-supply, the contractor shall pay rent to Government at Rs. 500 *per mensem.* Such improvement or addition to the said buildings or water-supply as may be approved by the Government will be carried out at Government cost subject to the payment by the contractor of such additional rent or rate as may be fixed by Government; and such repairs to the Distillery buildings and channels as may be pointed out by the Executive Engineer, shall also be promptly executed by the contractor, provided the annual cost of such repairs does not exceed 50 rupees.

II. The contractor will be required to keep in store at the Central Distillery, ordinarily a supply sufficient for a month's consumption (~~34,000~~ gallons at the present rate of consumption) and *never less* than 18,000 gallons of admissible spirits in terms of 20° under-proof.

III. The contractor will be allowed to purchase Arrack and other country spirits from any Sugar Factory which may be established in Mysore, and which may be authorized by Government to distill Arrack and other country spirits. Should the contractor himself establish a Sugar Factory and distill Arrack and other country spirits therein, with the permission of the Government, he will be bound to keep in stock at such factory such quantities of Arrack and other country spirits, as may be fixed by Government.

IV. The spirits manufactured shall be of good quality, and ~~only distilled~~ water shall be invariably used at the Distillery under the supervision of the Senior Officer in charge of the Distillery for reducing strong spirits to the authorized strength. The articles used in distilling shall be approved by the said officer. No ingredients obnoxious to health shall be used in distilling or put into the arrack or other country spirit or special liquor after it has been manufactured. The spirits manufactured shall not be adulterated or diluted, save by addition of distilled water for the purpose of reducing strength to the authorized degree.

V. In outlying tracts where, owing to small consumption or other causes, there is reason to suspect illicit distillation, Government will be at liberty to establish out-stills, after giving the contractor the first refusal of so doing.

VI. (1) The contractor shall, upon receipt by him of price at the rate fixed by his contract, issue at the Government Distillery or other place where he may be allowed to manufacture the same to the Senior Government Officer in charge thereof, such quantity of Arrack and other spirits as may be indented for by him for supply—

1*st.* To such Bonded Depots as Government may, from time to time, establish and maintain;

2*nd.* To separate shop-keepers licensed to sell in the Cities of Bangalore and Mysore and Kolar Gold Fields and in other places to which the Separate Shop System has been or may be extended;

3*rd.* To renters of Vend Farms to whom the Government may sell the right to vend Arrack in defined tracts;

4*th.* To the Government Excise Depot in the Civil and Military Station of Bangalore in compliance with indents received from the Superintendent of Excise, Civil and Military Station. Arrack supplied to the Civil and

Military Station will not be paid for in advance but once a fortnight on receipt of bills from the contractor to be submitted to the Collector, Civil and Military Station, through the said Superintendent of Excise.

(2) The contractor shall have no interest in the retail vend of Arrack. Nor shall he employ as agent or in any other capacity in the Distillery any person having such interest.

(3) The contractor shall sell double-distilled or rectified spirits and other special liquors manufactured by him to the licensees for the vend of "Foreign Spirits and Foreign Fermented Liquors" other than *draught* Foreign Malt Liquors. He shall also sell the same to Bonded Depots and to Hospitals and other public institutions, on the Excise Commissioner's requisition.

No spirit shall be allowed to be removed from the Government Distillery, or other authorized place of manufacture, except for issue to Bonded Depots unless the purchaser produces a Treasury receipt for the amount of duty paid therefor.

NOTE.—This condition does not apply to removal of arrack for the supply of the Government Excise Depot in the Civil and Military Station, for which no Treasury receipt will be required.

VII. The contractor shall be bound to conform to the provisions of the Excise Laws for the time being in force in the Territories of Mysore and in the Civil and Military Station of Bangalore; and he shall see that all his employees give full effect to them.

VIII. The out-going contractor shall give and the in-coming contractor shall take over, any Arrack or other country spirits and special liquors not exceeding a month's supply, which may remain as stock in hand on the last day of the expiring contract, the latter paying the former for the same such value as may be fixed by the Excise Commissioner.

IX. Should the in-coming contractor or the Excise Commissioner so require by at least one week's previous notice in writing, the out-going contractor shall cease preparing "Wash" during the last month of the expiring contract, and vacate the buildings so as to admit of the in-coming contractor commencing operations. Should no such notice be given, the out-going contractor may continue distilling till the end of his contract, after which further distillation by him must cease. The in-coming contractor shall issue Arrack and other country spirits and other special liquors from the Distillery to Bonded Depots if so required by the Excise Commissioner in sufficient time (not exceeding two weeks prior to the commencement of his contract) to have his supply ready in all Bonded Depots for issue from the 1st July of the first year of his contract.

X. The out-going contractor shall sell, and the in-coming contractor shall buy, all apparatus and stock and block belonging to the former at the Government Distillery near Bangalore, or other authorized place of distillation for a fair and equitable price to be fixed by the Excise Commissioner, calculating the original cost and deducting therefrom such portion of it on account of depreciation as may be considered reasonable. Timely notice of the price thus fixed will be given to the out-going contractor, and to intending tenderers by a notification duly published in that behalf.

XI. Improvements of a permanent nature shall be retained and shall not be disturbed except with the approval of the Executive Engineer.

XII. In case of a breach of any of the above conditions, Government will be at liberty to cancel the contract and to declare the deposit made by the contractor and all his apparatus and stock and block, forfeited, and also to recover from the defaulting contractor such further loss as may be occasioned by such breach.

Si

I have the honor to state for the information of Government that in accordance with Notification No. Fl. 4384/S.R.140-12-8, dated 5th February 1913 the tenders that were received this day for the exclusive privilege of manufacture of arrack for supply to the State of Mysore and the Civil and Military Station of Bangalore were opened by me at the notified hour in the presence of such of the tenderers as were present. There were only three tenders which were personally presented with the full deposit amount of five thousand rupees. These were, one by Mr. Tangavelu Mudaliyar on behalf of Messrs A.Narrainswami Mudaliyar and Co., and M.Bajjanna and Sons, and the second by Mr. Sattar Sait on behalf of Messrs. Hajee Ismail Sait and Sons, while the third was by Messrs. V.Thimm and P.Nottakallappa. The particulars of the rates tendered are noted in the list sent herewith.

2. I forward all of them for kind perusal and return for being duly recorded. The deposits received in currency notes have bee duly sent to the Officer in charge of the Bangalore District Treas for deposit pending disposal of the tenders. The Government of India pro-note endorsed in the name of the Dewan of Mysore tendere by Messrs. A. Narrainswami Mudaliyar and Co., and M.Bajjanna & Son for R.5000/- has also been sent to the same Treasury Officer for safe custody.

3.

5. It will be seen that there was no competition worth mentioning. It could not by any means said to be keen considering the wide publi--city given to the Notification.

4. For the information of Government I append in the margin the rates accepted from time to time for the molasses arrack which alone forms the bulk of consumption in this Province.

Year.	Rate.
1902-1903.	R.0- 6-4
1903-1907.	0- 8-6
1907-1910.	0-10-11
1910-1915.	0-13-1½

5. From a comparison of the rates now tendered, it will be seen that they lie midway between the current and the one accepted during the next preceding period.

6. The absence of a tender from Messrs. Parry and Co., who are experts in the line is conspicuous.

7. A comparison of the rates in the neighbouring Districts of Madras is a very necessary preliminary before proceeding to judge on the rates before us and to decide upon them. The rates given in the Madras Notification dated January, 31st 1913, for the neighbouring tracts are noted below for ready reference.-

	Sugar-cane jaggery arrack.	Molasses arrack	Palmyra arrack.
	30 U.P.	30 U.P.	30 U.P.

North Arcot.	"	0-13-6	"
Salem.	"	0-13-6	"
Coimbatore.	"	0-14-0	"
Nilgiris.	"	1-.2-0	"

Taking into consideration all the circumstances detailed above and the high prices still ruling the raw material market, I am of opinion that there is not much to choose among the tenders now received.

8. I have submitted my recommendations to the Dewan through the - - accompanying D.O. which I request may be kindly forwarded along with this letter to the Camp by a special messenger for very early orders

being

being obtained thereon.

9. The tenders for Coorg contract are to be opened on the 15th Instant I hear, and the contractors are naturally anxious that the final decision of Government be made known to them at least a couple of days before that date.

I have the honor to be,

Sir,

Your most obedient servant,

Chief Commissioner.

To

Offg: *Secretary to the Government of*
His Highness the Maharaja of Mysore,
General and Revenue Departments.

Sir,

Adverting to para 4 of Government Proceedings No.Fl.5412-21/
17 C.R.140-12 dated 28th March 1913 calling for proposals regarding the price to be paid by the Licensees as well as the retail selling price for a gallon of Molasses arrack, I have the honor to state that the Licensees at present pay R.0-13-2 as price, R.4-12-0 as duty for a gallon making in all R.5-9-2 ~~annas~~ and are allowed to sell the same for a fixed sum of R.6-6-0. The difference between the cost and retail rates will be the margin of profit allowed to them to meet the rentals of shops and other charges. Leaving aside the item of duty, the cost price per gallon to the Licensee is R.0-13-2. But the Government actually bear a charge of R.0-15-8 on a gallon, being R.0-13-1½, paid to the Manufacturers and R.0-2-6½ paid to the transporting Contractors, which is not reimbursed by the Licensee of the shop.

2. Whatever may have been the object of the transporting -- charges being borne by the Government, it may be admitted on all hands that the retail dealer must bear both the manufacturing and transport charges, if he wants the liquor to be made available at his place.

3. The rate of manufacture now accepted by the Government, -- R.0-11-1 per gallon will leave an extra profit of R.0-2-1 to the --- Licensee. But I would propose that the rate of selling to the Licen--see be continued as hitherto at R.0-13-2 and his vend rate also at 2 annas per dram. This will leave a margin of R.0-2-1 to the credit

of

of Government which will in some measure go to pay the transporting charges.

4. Under the above proposal an extra Revenue of R. 50468-6-1 wil accrue to Government calculating on a consumption of 387603 gallons as in the last year.

5. As regards Jaggory spirit the same rate as hitherto obtained may be allowed to continue although the rates payable to the manufacturers is reduced from R. 0-14-6½ to R. 0-12-3 per gallon. This will allow of the transporting charges on this liquor, being also partially reimburse

6. The transporting charges on Special liquors are now recouped by the Licensees. The rates will be notified in consultation with the incoming Manufacturers later on.

7. With these rates, if approved by Government, Condition XX para 2 clauses 1, 2 and 4 relating to Molasses and Jaggory arrack ma be retained as they exist in the last year's Notification.

I have the honor to be,

Sir,

Hajee Ismail Sait and Sons of Bangalore - -

under the designation of " Manufacturers of

and other country spirits, for the terri-

-tories of Mysore, inclusive of the Civil and

Military Station of Bangalore, for a period

of three years from 1st July 1913 to 30th

The aforesaid Messrs. Hajee Ismail Sait

with the Government of Mysore as security

for the due fulfilment of their engagements

the sum of Rupees fifty thousand as particula

-rised in the schedule annexed and have

further hypothecated all their apparatus and

stock

stock and block in the Government Central Distillery, Bangalore, and agreed to abide by the following conditions, and they further hereby bind themselves, their heirs, - - - executors and representatives by the terms of this agreement.

_C_O_N_D_I_T_I_O_N_S_._

1. The manufacturers shall manufacture arrack and other country spirits within the enclosure of the Government Central Distil--lery near Bangalore, or at such other place, as may be approved by Government. For the use of the Distillery buildings near Bangalore as per plan attached, and also for the - - arrangements existing in connection with the water-supply, the Manufacturers shall pay rent to Government at rupees seven hundred per mensem during the period of the contract, irrespective of any additions that may be made, other than those mentioned in the next para.

2. The Manufacturers shall keep in store at the Central Distillery, ordinarily a supply sufficient for a month's consumption (forty thousand gallons) and never less than 20000 gallons of ~~admissible spirits~~ ordinary arrack in terms of 25° Under Proof.

3. The manufacturers will be allowed to purchase arrack and other country spirits from any sugar factory which may be - - established in Mysore, and which may be authorised by Government to distil arrack and other country spirits. Should the Manufacturers themselves establish a sugar factory

factory and distil arrack and other country spirits therein, with the permission of the Government, they will be bound to keep in stock at such factory such quantity of arrack and other country spirits as may be fixed by Government.

4. The spirits manufactured shall be of good quality. For reducing strong spirits to the authorised strength, only Hessarghatta filtered water shall be used when available for which the Manufacturers should pay to the water-supply Department at the usual rates, other-wise distilled water. In either case, it will be under the supervision of the Senior Officer in charge of the Distillery. Hessara-ghatta filtered water will be supplied by Government and will be under the control of the Dis-tillery Officer. Its use is limited to the reduction of spirits only. The articles used in ~~distillation~~ distilling shall be approved by the said officer. No ingredients obnoxious to health shall be used in distilling or put into the arrack or other country spirit or special

special liquor after it has been manufac-
-tured. The spirits manufactured shall not
be adulterated or diluted, save by the addi
-tion of Hessaraghatta or distilled water as
the case may be, for the purpose of reducing
strength to the authorised degree.
